DEFINITION OF RECYCLED

All work displayed must be original, at least 75% recycled/ re-used/ repurposed and produced by the exhibitor. Our criteria for recycled is using elements that were originally manufactured and would be thrown away, if it were not for your creativity to reformat it in a manner different from its intended original use. A good criterion is that the materials you use are considered junk, or would have ended up in the landfill if you hadn't rescued them for art. For our purposes, materials from nature such as rocks, sticks, leaves, bones, dirt, water, etc. are not recycled.
